Scholarships

At Kambala we understand the depth and diversity scholarship students bring to the school community. We are committed to providing opportunities for these young women and creating within the community a capacity to make a difference in the world. A scholarship at Kambala is a commitment by Kambala, to an able student's future. As such, it carries with it responsibility on the part of the student. Scholarships are not awarded lightly and are reviewed each year. They open up great opportunities for the students.

Dar'ya Moskalenko embraced such opportunity, having been awarded an academic scholarship in Year 7. "I am so grateful for the opportunities that my education at Kambala brings ... both now and in the future. The subject choices at Kambala are truly inspiring. I have particularly enjoyed the chance to focus on my passions for the sciences, music and the arts through my involvement with the STEAM program. This has opened up a whole new world of experiences that I never thought possible."

Sarah Li and Verity Bligh, two students from our 2015 cohort, also received academic scholarships for their education at Kambala. These two exceptional young women achieved outstanding results in their HSC and IB respectively, with both achieving the highest possible ATAR, while continuously contributing to the fabric of the School through participation in extra curricular, service and sporting activities.

The broader education these girls received has allowed them to diversify their strengths and identify their passions. Sarah is currently studying a combined Bachelor of Music Studies and Doctor of Medicine degree at the University of Sydney, while Verity commenced joint Honours and Politics at Keble College in Oxford.
